WHAT DOES OUR OB/GYN SPECIALTY MEAN TO YOU?

It means getting the professional attention you deserve.

It means special care throughout pregnancy and beyond.

It means specialized care to evaluate, treat, and prevent all manner of health issues for women of all ages. All women who are sexually active should see a gynecologist yearly to be evaluated for conditions such as cervical cancer.

Our OB/GYN specialists work in consult with the Family Physicians in our clinic and with physicians and providers throughout the Valley.

We Treat You Like Family!
